**DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed 11/20/2006 are persuasive.

The search report filed in the IDS of 01/19/2006 indicates a potential combination of WO 02/075864 with Miura et al.

A review of Miura et al shows that their hollow waveguide device be applied to passive filters or grating multiplexers.

As a result, there is no explicit teaching of the use of their device in combination with an active device, such as the amplifier disclosed by WO 02/075864, thus rendering a combination of WO 02/075864 and Miura et al under 35 USC 103 with respect to claims 1-34 untenable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 571 272 6981.
